Summary

Data Analyst with **4+ years of experience** analyzing complex datasets to drive business insights and decision-making. Skilled in **SQL, Python**, and data visualization tools including **Power BI and Tableau**. Strong expertise in data cleaning, transformation, and building dashboards to improve reporting efficiency. Proven ability to optimize data processes, identify trends, and deliver actionable insights in Agile environments.

Technical Skills

- **Programming Languages:** Python, SQL (PostgreSQL, MySQL, MS SQL Server), R, JavaScript
- **Data Analytics & Visualization:** Power BI, Tableau, Excel (VBA, Macros), Google Analytics, Matplotlib, Seaborn
- **Python Libraries:** Pandas, NumPy, Streamlit, Scikit-learn, TensorFlow, Keras
- **Database Management:** PostgreSQL, MySQL, MS SQL Server, MongoDB, ETL Pipelines, Data Modeling
- **Cloud & DevOps:** AWS, Microsoft Azure, Google Cloud Platform, Firebase, GitHub CI/CD, JIRA
- **Soft Skills:** Stakeholder Communication, Cross-functional Collaboration, Technical Documentation

Professional Experience

Data Analyst Intern, Rogers Communications, Ontario

Aug 2025 – Present

- Analyzed large datasets using **SQL and Python** to generate actionable insights, identifying trends, anomalies, and growth opportunities to improve data-driven decision-making across business units.
- Built interactive dashboards and reports using **Power BI**, enhancing visibility into key business metrics and improving stakeholder reporting for strategic decision-making and performance tracking.
- Designed and implemented **ETL data pipelines** for extraction, transformation, and loading, ensuring data accuracy and consistency across structured and unstructured data sources.
- Optimized **database queries and data models**, reducing processing time and improving data retrieval performance for high-volume transactional and analytical workloads.
- Collaborated with cross-functional teams to deliver accurate business reporting.

Data Analyst, Cognizant, India

Jan 2021 – Mar 2024

- Analyzed structured and unstructured data using **SQL and Python**, delivering insights to improve operational efficiency and identify patterns and key business drivers through comprehensive analysis.
- Developed dashboards and visual reports to track **KPIs and trends**, enabling stakeholders to make informed decisions through intuitive and interactive visualizations.
- Implemented **data validation and quality checks** to ensure reliability and consistency, reducing errors and maintaining data integrity across multiple systems.
- Built reusable **data models and reporting templates**, increasing efficiency and reducing redundancy in analysis tasks for scalable, long-term business use.

Projects

AI Benchmarking System with Predictive Analytics (Jaguar Land Rover)

- Developed an analytics reporting system to evaluate AI model performance using **Power BI and Streamlit** dashboards, enabling clear KPI tracking for stakeholders.
- Conducted advanced data analysis using **SQL and Excel** to identify performance trends and optimization opportunities, improving system efficiency by **15%**.
- Implemented data quality monitoring and validation processes to ensure accuracy and reliability across reporting systems.
- **Tools:** SQL, Power BI, Streamlit, Python

Automated Credit Approval System (CrediWise) (University of Windsor / TD Bank)

- Performed end-to-end business analysis for credit decisioning workflows; gathered stakeholder requirements and defined measurable **KPIs** for model development.
- Analyzed financial datasets using **Python, SQL, and advanced Excel** to identify approval trends and risk factors.
- Conducted **A/B testing** in an Agile (Scrum) environment, improving form completion rates by **28%** while meeting project timelines.
- **Tools:** Python, SQL, Excel, Scikit-learn, Power BI

Education

University of Windsor — Master of Science, Applied Computing

May 2024 – Aug 2025

- Windsor, Ontario, Canada

A.D. Patel Institute of Technology — Bachelor of Technology, Computer Engineering

May 2018 – May 2022

- Anand, India
